

STERLING BANK LEASING

WHY STERLING?

Principal Balance Remaining

Sterling Bank Leasing's lease payoff is based on the Principal Balance Remaining in the lease term, without the interest penalty, and the lease can be paid off at any time during the term, without limitations. Conventional lease payoffs are based on the Balance of Payments Remaining in the lease term, which includes the interest and principal.

Flexible terms

Flexible terms and custom lease structures can be created to meet our customer's cash flow. Those structures can include, but not limited to, 90 day deferred payments, 180 day step leases, and a 12 month practice builder program.

Fast Credit Decision

Only a credit application is required for transactions ranging from \$10,000.00 to \$125,000.00. Getting an answer to an application can be in as short as 20 minutes time.

Pre-funding

Sterling has the ability to pre-fund, on our customer's behalf, installment payments that are based upon the vendor terms of sale. The initial payment, in accordance with the terms of sale, would occur at the time we issue our purchase order to the vendor. Additional payments remaining would be paid under the terms of sale and would only occur upon notification made to Sterling Bank Leasing, and released upon our customer's consent, when payment is due.

The Sterling Bank Leasing difference is to your advantage!
